IIE Open Doors Student Survey

- The data presented in the following slides includes full time students on J-1 and F-1 visas during the Fall, 2008 academic term, only.
- Even though the UTHSC-H have international students on other visa types, those are not included in this report for being 'student' an incidental role to their main status and not their primary objective while at the UTHSC-H.
- Collection of these data responds to an International Institute of Education (IIE) Open Doors Student Survey, which requires exclusion of any student that was a U.S. Citizen, Permanent Resident, un-documented immigrant, B visa holders, and others who are taking courses at the UTHSC-H but who are matriculated under the visa sponsorship of another U.S. institution.
