

## Scientific Pre-Review Reviewer's Form

Protocol Number:

Principal Investigator:

Study Title:

Reviewer's Name:

Barbara Legate

Submission Components:

### Evaluation

1. Is the rationale for the study design clearly stated and scientifically sound?

Yes  No

2. Are the specific aims and objectives of the study clearly stated and measurable?

Yes  No

3. Are the standards for conducting the research in line with guidelines developed by relevant professional associations and scholarly disciplines?

Yes  No

4. Does the research rely on the least risky procedures that are clinically/scientifically sound and appropriate to purpose the research?

Yes  No

5. Is the study design adequate to achieve the specific objectives of the research?

Yes  No

6. Are statistical considerations, including sample size/justification, estimated accrual/duration, and statistical analysis clearly described and adequate to meet study objectives?

Yes  No

7. Are the Principal and Co-Investigators well qualified to conduct the study?

<input type="checkbox"/> Yes <input type="checkbox"/> No	
--	--

**8. Is the proposed subject population appropriate?**

<input type="checkbox"/> Yes <input type="checkbox"/> No	
--	--

**9. Are the data to be collected necessary to meet study objectives?**

<input type="checkbox"/> Yes <input type="checkbox"/> No	
--	--

**10. Has an adequate literature review been conducted to support the study?**

<input type="checkbox"/> Yes <input type="checkbox"/> No	
--	--
