

OSP NOTICE!

PLEASE SHARE WITH YOUR NIH FACULTY

5/18/2007

OSP has been asked to provide clarification of NIH deadlines for progress reports.

PAPER PROGRESS REPORTS: While we strongly encourage NIH faculty to use the electronic option, NIH still accepts (and requires, in some cases) paper progress reports. The deadline for paper progress reports is 60 days prior to the budget start date.

ELECTRONIC (eSNAP) PROGRESS REPORTS: The deadline for eSNAP (electronic) submissions through the eRA Commons is 45 days prior to the budget start date. A Principal Investigator (PI) can view the due date for an eSNAP progress report under the Status tab, Pending Progress Reports, in eCommons. Utilizing the eSNAP option provides the PI and institutional administrative officials an extra two weeks.
