

Postdoctoral position studying post-transcriptional control of mammalian gene expression

A postdoctoral position is available in the Department of Biochemistry and Molecular Biology, University of Texas Medical School at Houston (<http://www.uth.tmc.edu/bmb/faculty/ann-bin-shyu.html>).

We are looking for a highly self-motivated individual with a recent PhD degree in biomedical sciences and solid expertise in molecular biology, biochemistry and immunology. The successful candidate will participate in projects focused on the post-transcriptional mechanisms controlling mammalian gene expression (such as regulation of the inflammatory response of human bronchial epithelial cells, microRNA-mediated gene silencing, RNA Processing body formation, etc). Annual salary (plus fringe benefits) depends on qualifications and experiences.

To apply, please send a current resume/CV and the names and contact information of three references to: Dr. Ann-Bin Shyu, University of Texas HSC, 6431 Fannin St., Houston, Texas 77030, USA. E-mail: Ann-Bin.Shyu@uth.tmc.edu.

The University of Health Science Center at Houston is an EEO/AA Employer. M/F/D/V. This is a security sensitive position and thereby subject to Education Code §51.215. A background check will be required for the final candidate.
