

Appendix 8 – GRANTS AND CONTRACTS

1. How does the University ensure that all contracts and grants are negotiated by the Office of Sponsored Projects and not by the individual researchers?
2. Describe how a contract is negotiated by your office.
3. Does the University have a policy on payment for treatment of study related injuries?
4. Is there a process to ensure that the contract and the consent document have consistent injury language?
5. What is the most challenging aspect of your job?
6. Do you have any message we could relay to the University Officials?
7. How do you ensure that research involving human subjects has CPHS approval prior to study initiation?
8. AAHRPP Standards require that institutions have a written agreement with the sponsor that any discovery of information by the sponsor monitor that might affect the subjects participation in the study be notified to the institution. How does this institution meet this requirement?
9. What is the publication policy adopted by this institution?
