

School	Investigator	Institute	Project
DB	Karen Storthz, PhD	National Institute of Cancer Dental Research (NICDR)	Center for Salivary Proteomics and Diagnostics
MS	Charles Van Buren, MD	National Center for Complementary and Alternative Medicine (NCCAM)	Human testing concerning restriction of dietary nucleotides to decrease expression at cytochrome P450 in the intestine.
MS	Rodney Kellems, PhD	National Institute of General Medical Sciences (NIGMS)	Integrative High-Throughput Approaches to Novel Biological Questions
MS	Ouida Westney, MD	National Institute of General Medical Sciences (NIGMS)	Erectile Dysfunction after radical prostatectomy/ overactive bladder
MS	Yong-Jian Geng, MD, Dong Kim, MD, and Charles Cox, MD	National Institute of General Medical Sciences (NIGMS)	Interdisciplinary Regenerative Medicine Facility/Stem cells and tissue repair
MS	Thomas Clanton, MD	National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS)	Orthopaedic Trauma and Musculoskeletal Tissue Regeneration
MS	John Byrne, PhD	National Institute of Mental Health (NIMH)	Cortical Plasticity related to memory/Center for Memory and Cortical Plasticity
MS	James Grotta, MD	National Institute of Mental Health (NIMH)	Neurodegenerative dementias/Alzheimer's disease – Mitchell Center for Transformational Research in Brain Diseases
MS	John Byrne, PhD	National Institute of Neurological Disorders and Stroke (NINDS)	Theoretical and Computational Neuroscience
MS	James Grotta, MD	National Institute of Neurological Disorders and Stroke (NINDS)	Neurodegenerative dementias/Alzheimer's disease – Mitchell Center for Transformational Research in Brain Diseases
MS	James Grotta, MD	National Institute on Aging	Neurodegenerative dementias/Alzheimer's disease – Mitchell Center for Transformational Research in Brain Diseases
SON	Sandra Hanneman, PhD	National Institute for Nursing Research	Circadian biomarkers in vulnerable populations
BME	Mauro Ferrari, MD	National Cancer Institute (NCI)	Center for Cancer Bioengineering
