
Chemical Reuse Program

The following glassware and new unopened chemicals are available through the UTHSC-H Chemical Reuse Program. They are free of charge, and can be delivered to your laboratory or viewed by calling 713-500-8100, or by leaving a message on the hazardous waste line at 713-500-5837. We encourage you to help save in both hazardous waste disposal costs and chemical purchasing costs by inspecting this inventory prior to purchasing chemicals. Thank you for your cooperation.

Item	Number	Volume/Wt.
