

# STANDARDIZED PATIENT EVALUATION FORM (SPF)

Fellow: \_\_\_\_\_

Faculty: \_\_\_\_\_

## 1. CLINICAL SKILLS – HISTORY

Demonstrates consideration for the patient during the interview. Recognizes and interprets nonverbal clues. Allows the patient adequate time to tell about the illness in his/her own words, yet directs questions effectively to obtain the necessary information. Develops in chronological sequence an accurate description of the pertinent symptoms and events in the present illness. Obtains appropriately complete information in the past history, family history and social history.
