APRIL 15, 2010

PRESENTING:

JERRY MANK, MD, NOELLE O'SHEA, DO AND, DAVE RICHARDS, MD

M&M Conferences

The Morbidity and Mortality conference is held four times during each fellowship year on a third Thursday at 5:00 pm. Students, residents, fellows, and faculty attend the M&M conference, where cases are listed and reviewed, as are complications and deaths occurring during the past months. The information gleaned from these teaching conferences is invaluable in achieving the education goals of the program.
