

UTHCPC REFRIGERATOR TEMPERATURE LOG

Unit: _____ Location: _____ Month/Year: _____

(Please join the data points with a line)

		1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31					
← 37°F (2.7°C) Target Temp. ↑ Target Temp. - 37°F (2.7°C) ↓	Danger Zone	47°F (8.3°C)																																			
		46°F (7.8°C)																																			
		45°F (7.2°C)																																			
		44°F (6.6°C)																																			
		43°F (6.1°C)																																			
		42°F (5.5°C)																																			
		41°F (5.0°C)																																			
		40°F (4.4°C)																																			
		39°F (3.8°C)																																			
		38°F (3.3°C)																																			
		37°F (2.7°C)																																			
		36°F (2.2°C)																																			
		35°F (1.6°C)																																			
		34°F (1.1°C)																																			
	33°F (.5°C)																																				
↓ Target Temp. - 37°F (2.7°C) ↑ ← 37°F (2.7°C) Target Temp.	Freezing Zone	32°F (0°C)																																			
		31°F (-.5°C)																																			
		30°F (-1.1°C)																																			
		29°F (-1.6°C)																																			
		28°F (-2.2°C)																																			
		27°F (-2.8°C)																																			
		26°F (-3.3°C)																																			
		25°F (-3.8°C)																																			
Staff Initials																																					
Action Complete if temperature is in freezing or danger zone (red shaded area)																																					
Action Complete if temperature is in freezing or danger zone (red shaded area)																																					

❖ Temperature within Freezing or Danger Zone will require a documented action.
