Postdoctoral Fellow Position

The University of Texas Health Science Center at Houston, Houston, Texas 77030, USA

TITLE: Postdoctoral Fellow
LOCATION: Integrative Biology and Pharmacology, University of Texas Health Science Center at Houston
SALARY: Commensurate with experience
CLOSING DATE: Open until filled

JOB DESCRIPTION:
A position is available for a Postdoctoral Fellow to study the functional roles and mechanisms of cAMP/Epac-mediated cell signaling in disease models related to inflammation, metabolic syndrome, or cardiovascular diseases using genetic and pharmacological approaches. The candidate must have extensive experience in cell signaling and molecular biology. Expertise with knockout mouse models and animal surgery is desirable. The candidate must be highly motivated and able to work independently and capable of designing experimental protocols, analyzing data, write up protocols and manuscripts, and lead out in the defining the direction of given investigations. The individual must have a Ph.D. degree (or equivalent) and work experience in a laboratory setting.

Interested individuals should send their resume to: Dr. Xiaodong Cheng (6431 Fannin Street, University of Texas Medical School, Houston, TX 77030) by e-mail to: xiaodong.cheng@uth.tmc.edu. Applicants should include a cover letter describing their background and research interest, CV, and the contact information for three references.

The fulltime salary range is based on the 2016 NIH appropriate stipend level based on years of experience.
