Psychological Intervention and Research Lab for Mood Spectrum Disorders (PIRL-M) Post Doc Fellowship

The Psychological Intervention and Research Lab for Mood Spectrum Disorders (PIRL-M) is associated with Mood Disorder Excellence Center of the Louis A. Faillace, MD, Department of Psychiatry and Behavioral Sciences at McGovern Medical School at UT Health. We are dedicated to exploring mechanisms and processes underlying bipolar disorder and recurrent major depression. This also includes discovering and exploring novel integrative treatment approaches for mood disorders, and how mental health professionals approach these new treatments. Some of our work also focuses on the loved ones of individuals experiencing mood disorders.

The Postdoctoral Fellow will assist Dr. Meyer and PIRL-M in the pursuit of these goals via the following activities: participate in existing research projects but also be involved in the development of new projects, including study design and implementation, manuscript preparation, and grant writing. There will be the option to provide professional psychological services to patients with bipolar disorder and recurrent depression, including assessments and psychosocial treatments.

Qualifications: The Postdoctoral Fellow will have completed an APA-accredited Ph.D. or Psy.D. graduate program in clinical psychology, a
doctoral internship, and will have their doctoral degree prior to starting in the position. Ideal candidates will have documented interest in mood disorders in adults and expertise in clinical research methods and statistical analysis. Additionally a good foundation in assessment and psychotherapy with mood disorders would be ideal.

The Postdoctoral Fellowship program will include at least one hour per week of regularly scheduled, face-to-face individual supervision. This supervision is provided by appropriately trained and licensed faculty members. In addition to individual supervision, there are other opportunities for personal development and learning activities, such as didactic trainings, research meetings, and Departmental grand rounds.

Compensation: Competitive salary plus generous benefits (including medical insurance, retirement planning, paid holidays and vacation.

Postdoctoral Fellowship applications: The DCBI is currently accepting applications on a rolling basis. Please submit a cover letter, CV, and two letters of recommendation to Dr. Thomas Meyer, Director of PIRL-Mat thomas.d.meyer@uth.tmc.edu.
